Notice of Funding Opportunity

Funding Opportunity Title: Increasing Transparency and Revenue in Equatorial Guinea through Fiscal and Digital Modernization
Funding Opportunity Number: FTIF-MALABO-FY20-0721
Deadline for Applications: August 13, 2021
Assistance Listing Number: 19.322
Total Amount Available: $100,000

A. PROGRAM DESCRIPTION
The U.S. Embassy Malabo of the U.S. Department of State announces an open competition for organizations to submit applications to carry out a program to assist the Government of the Republic of Equatorial Guinea (GREG) in making budget documents and information on debt obligations widely and easily accessible to the general public, creating a system for transparent reporting and analysis of budget execution, adopting internationally accepted accounting principles, and improving the transparency and effectiveness of tax collection to increase non-hydrocarbons revenue. Please follow all instructions below.

Priority Region: Equatorial Guinea

Contact Person: For questions on the application and technical content please malabopolecongrants@state.gov

Program Objectives:

Objective 1: Make national budget documents and information on debt obligations widely and easily accessible to the general public

Objective 2: Create a system for transparent reporting and analysis of budget execution

Objective 3: Adopt internationally accepted accounting principles and procedures

Objective 4: Improving the transparency and effectiveness of tax collection to increase non-hydrocarbons revenue

Expected Results:

Grantees would work with the Ministry of Finance to develop a set of procedures for the monthly reporting of budget execution data, including the implementation and operationalization of reporting structures, which would also reinforce the timeliness of data reporting. In addition, the training would increase the number of staff able to complete the reporting of budget execution data so that the current team is no longer overwhelmed by the size of the task. Operationalizing a macroeconomic unit with standardized procedures to report budget execution data would
allow it to fulfill its designated roles of overseeing the data reporting and preparing timely and pertinent reports to guide the Minister’s decision-making on a regular basis.

The program would also enhance connectivity to improve remote collaboration, which was not readily available to all given high internet costs and slow download speeds. It would also continue ongoing efforts to digitize and publish budgets, execution data, and debt on the Ministry’s website to replace the expensive and time-consuming process of ordering official copies of the aforementioned documents.

Helping the government adopt internationally accepted accounting principles and improving fiscal reporting would have a positive outcome in terms of broader fiscal transparency as the unit’s monitoring and follow up should incentivize staff throughout the Ministry to improve their collaboration and professionalism, and following established procedures and timelines. It would also decrease opportunities for misallocation of state resources to go unnoticed for long periods of time, and alert relevant authorities to possible corruption or the need to review questionable charges.

Improving the transparency and effectiveness of tax collection to increase non-hydrocarbons revenue would build on existing efforts in coordination with the IMF and the Ministry of Finance. The Ministry has already published some tax guides for taxpayers. Going forward, the Ministry needs to design some simple to use tax forms and create a registry to track who has filed taxes. The program grantees would assist in these efforts, as well as help the GREG create greater awareness of these innovations and utilize their websites to allow citizens to obtain information, then submit tax documents and potentially payments online. Publication of overall budget data could demonstrate the percentage of revenues that come from taxes, as well as the amount of uncollected revenue. Greater tracking of the payments would allow the GREG to focus efforts on outstanding debt collection and better balance its accounts.
